MOBILE CRANES

A complex contract for critical lift operations usually involves a large number of cranes – often of different capabilities. With multiple units working simultaneously and in many cases on a 24/7 operation, it is essential to enlist the services of a partner who truly understands the challenges of such a project. We offering the only national service, AJT is the safe choice for handling the pressures of any multiple lift on any scale, anywhere. Our fleet of heavy haulage trucks supports the mobile cranes by transporting ballasts, additional crane sections and lifting equipment to wherever they are needed.

TRANSPORT SERVICES

The scope of services in transportation includes all types of trucking, trailers and equipment to handle a wide variety of requirements, no matter what the industry or region, our company caters to individual requirements. A streamlined heavy transport plan is very essential for any project as the delivery of oversize and heavy components is key to a project's critical path. AJT Transport provides a cost-effective and safe heavy transport service to our clients. AJT modern fleet of heavy transport equipment is one of the best in range and capacity, of flatbed from 12 meter to 24 meters & lobed trailers from 25 to 100 ton capacity.
